

- i. AAU has a rolling admissions policy, which means that applications are accepted year-round. AAU stops accepting applications from non-visa seeking applicants for the upcoming semester two weeks before the semester starts. Students with visa requirements who are not eligible for a visa waiver are requested to apply no later than 10 weeks before the start of the term. (The official visa processing time by Czech authorities is 60 to 90 days from an interview at the Czech embassy or consulate, however delays are not uncommon.) Applicants who submit the application later will be considered for admission to the following term. Students admitted only to the US-accredited degree program should apply for the visa type "other." Students admitted to the US and Czech accredited degree should apply for the visa type "study." Visiting students should apply for the visa type "study."
- ii. The specific application deadlines for each year will be posted on the AAU website.
- iii. Admitted applicants can commence their studies either at the beginning of regular fall intake (beginning of September), late fall intake (end of September), or spring intake (February). Study abroad and auditing applicants can also enroll in the shortened winter (January) and summer (late May or June) terms. Special deadlines apply to Erasmus and University exchange students who must submit their applications for the fall term by _____ and for the spring term by _____.

- ii. The admission decision will be communicated to the applicant within one week of the interview or completion of the application, should an interview not be necessary. As of January 2021, the decision is delivered to the applicant by means of the electronic information system if the applicant agreed to this method of delivery in the application. Otherwise, it is delivered in person or by means of mail service providers. The admission is valid for the semester marked in the decision (Erasmus and University exchange students) or for the semester marked in the decision and the subsequent semester (degree-seeking and study abroad students). If an applicant is not able to matriculate and start their studies within these deadlines, the admission decision expires.
